

I've created rehearsal files for Chorus no 20, incorporating Matthew's changes to the Sop & Alto parts. A link to files for all the parts is below

I'd be happy to have this circulated to the choir, with the caveat that the score was difficult to scan. Many of the various accidentals are pretty faint and obscure. I think I've got the parts right but if anyone spots mistakes please let me know and I'll correct them!

For some reason one Eb note in the Sop line in bar 2 at the top of p 246 doesn't sound and I don't know why.

When I split the alto line, the alto 2 part has a clarinet sound – other voices are all piano sounds.
